Dear colleagues and friends,

In May 2011 EHRN will hold an awareness month for the harm reduction situation in Belarus-Ukraine-Moldova on its Facebook page (<http://www.facebook.com/eurasianharmreduction>) with an aim to give greater attention to these countries. It is a great opportunity for you to promote the work of your organization via social media and highlight your successes or seek advice in case of difficulties.

You are invited to post information on the following topics: recent events, trainings, projects, reports, advocacy, other by your organization (in case you are affiliated to an organization). The range of thematic topics are related to drug use and include harm reduction, drug policy, stimulants, hepatitis C, HIV, prisons, needle exchange, opioid substitution therapy, human rights, stigma, gender, tuberculosis and other. Also you can send me links to the information which you think is important and should be disseminated.

If your organization is already on Facebook, feel free to share the information to the EHRN page!

Please inform your friends about this campaign and send them the link to the page of the Eurasian Harm Reduction Network Facebook page:
<http://www.facebook.com/eurasianharmreduction> .

Best,

Larisa Abrickaja

Program Officer, Research and Information Program
